THANK YOU FOR CONSIDERING US

To our prospective sponsors,

On behalf of the American Society of Civil Engineers (ASCE) San Jose Younger Member Forum (SJ YMF), we thank you for your consideration in sponsoring our 2nd Annual Engineers Week. Engineers Week aims to inspire future generations of engineers and provides opportunities for K-12 students to learn about science, technology, engineering, and mathematics (STEM) through professional panels, discussions, and hands-on engineering activities. Our goal is to expose students from disadvantaged and underrepresented backgrounds to the field of engineering and engage them in a fun and meaningful experience.

This fun-filled event would not be possible without our sponsors and so we seek support from public agencies, private firms, and other non-profit organizations to join us in promoting the importance of engineering to students in the San Jose area. Your financial support will offset the cost of venue fees, bus transportation, lunch, t-shirts, and supplies while giving you targeted, community recognition and exposure. Sponsorship opportunities are detailed in the pages that follow and include recognition on our social media platforms and print media, in addition to a variety of other benefits.

We thank you in advance for your support and hope that you'll join us for Engineers Week 2025!

Regards,
ASCE San Jose Younger Member Forum
Engineers Week Team
